Anti-Bullying Bookmark Making Activity

Date of Conduct: Tuesday, 27th October 2026

Conducted by Pooja Arora

As part of the school's Anti-Bullying Awareness initiative, an Anti-Bullying Bookmark Making Activity was conducted to encourage students to learn about giving respect to everyone. The activity was planned to promote awareness in an interesting and creative manner. It also gave students an opportunity to participate in an awareness-based classroom activity.

The activity was conducted in the classroom, and students brought the required materials from home. They used paper, colours and other craft materials to prepare their bookmarks. Each student worked independently and presented their own ideas through the design and content of the bookmark.

The activity encouraged students to combine creativity with an important social message. They enjoyed working with different materials and creating unique bookmark designs. The completed bookmarks reflected the students' active involvement and thoughtful approach towards the theme.
